

***Logistics solutions: 1000 details. Brilliantly connected.***

***Five good reasons to choose the right partner for your  
logistics and have a central competitive advantage.***

**GWmoves**

1 2 3 4 5

***Because your  
efficiency  
is our business.***

How can you get a better overview of your suppliers' transport processes? What are the benefits of direct transport? Could on-time supply increase productivity? Does it make sense to outsource the pre-assembly or the empties management? Implementing a sophisticated procurement logistics concept accelerates the flow of goods and reduces stocks.

1 **2** 3 4 5

***Because shorter  
transit times are  
a good argument.***

With our on-time transport network we increase the efficiency of your goods traffic. Due to intelligent cross-docking processes, your goods flow will become quicker and more flexible. In this way, we have been able to shorten transit times and reduce process costs for our customers.

1 2 **3** 4 5

***Because nothing  
is more valuable  
than your time.***

Our warehouse is your warehouse. It adapts to seasonal fluctuations, is always well equipped and up-to-date at all times. On request we additionally take care of individual services like picking orders, packaging or dispatch. As a result you gain flexibility and your fixed costs become variable costs.

1 2 3 **4** 5

***Because not  
all distribution  
is the same.***

Air, water, road, rail – which is the best choice for your purpose? Do your goods need to be delivered extremely fast? Which system is the most appropriate for important individual consignments? And which one for mass distribution? We offer a variety of distribution systems around the globe. Local service is included, as well as product returns and customs clearance.

1 2 3 4 5

***Because your  
requirements take  
centre stage.***

Together with you, we develop an individual logistics solution for your entire supply chain. From procurement to distribution. Partners, along with goods and information are consolidated into one single point of contact (SPOC) and centrally controlled. In this way, you will be able to keep an overview, having only one point of contact for all your needs.
