151,00 €	160,00 €	1,2%
Each additional increase of € 10.00		+ 0,1%

The energy agreement consists of a surcharge for electricity and a surcharge for gas. The index, published by the **Regulatory Office for Network Industries**, for electricity and gas is used as a basis for adapting to the relevant price changes. Any adjustments are made on the first day of each month based on the currently available value.

You can find the current status on the website of the **Regulatory Office for Network Industries**:
