

EKAER

As of January 1, 2021, the legal norm serving as the basis of the Electronic Trade and Transport Control System (EKAER) will change.

As of January 1, 2021, only the products listed in the appendices to the [Regulation of the Ministry of National Economy, No. 51/2014. \(XII. 31\)](#) on the determination of risky products in connection with the operation of the Electronic Road Transport Control System (EKAER) must be declared.

Food and other products involving risks required to be reported over 500 kg AND / OR over a value of goods of HUF 1,000,000. (1.510 kg with the value of goods of HUF 1,800,000 / 499 kg with the value of goods of HUF 1,200,000 or 1.000 kg with the value of goods of HUF 499,000 are similarly required to be reported!)

With January 1, 2021, products falling beyond these regulatory limits can be transported on public roads without any reporting obligation or an EKAER number!

The provision of the EKAER identification number is the responsibility of the client, Gebrüder Weiss cannot assume any liability for the consequences in case of failure to do so. **We kindly ask you to send the EKAER number with the order to Gebrüder Weiss** (order in paper form, e-mail or eBooking. In case of EDI, the 15-digit ID number must already be available).

If the consignment has an EKAER number, **it is mandatory to place an order with Gebrüder Weiss as carrier (ID number: 17856881).**

The scope of products exempted from the risk guarantee has been extended. Products, belonging to the scope of EKAER must be covered by a risk guarantee, but in certain cases the relevant regulations provide exemption. As of January 1, 2021, reliable taxpayers will no longer be required to purchase risk insurance in addition to the previous exemptions.

According to the new regulation, the taxpayer must declare the transport of the reportable product by road, the purchase of goods and the purchase of goods for other purposes, which can be done only by taxpayers with a valid EKAER number. The EKAER number is valid for 15 days from its registration.
