

The following instructions can be used to view the current “General” duty rate for specific 10-digit U.S. HTS numbers.

Go to [U.S. Harmonized Tariff Schedule](#)

The default setting will bring you to the “View” tab

From this location you have access to select and view all parts of the U.S. HTS including sections, chapters, chapter/section notes, general notes, rules, appendixes, annexes, and the alphabetic index.

To search for details on a specific HTS number select the “Search” tab.

HTS Search

From here you can initiate a search based on the 4, 6, 8, or 10-digit level. Considering the 4 and 6 digit levels are universal for all countries we recommend you search at the 4 or 6 digit level and then review the available options at the 8 and 10 digit level.

The required formatting in the search field is as follows; N = number

4 digit level: NNNN

6 digit level: NNNN.NN

8 digit level: NNNN.NN.NN

10 digit level: NNNN.NN.NNNN

Once you have arrived at the 4, 6, 8, or 10-digit level you can find the “General” rate of duty in **Column 1, General**. The general rate of duty is the general duty rate applicable to all country origins, with the exception of North Korea, Cuba, and those countries that may have a free trade agreement or other preferential duty program with the U.S.. See further details below.

The duty rates in **Column 2** represent the duty rates for goods of Cuba or North Korea origin.

In addition to any applicable duty there would be MPF at 0.3464% subject to minimum of \$27.23 and maximum of \$528.33 per entry (minimum and maximum amounts effective up to Sept. 30, 2021)

If the goods arrive via sea freight then HMF at 0.125% would also apply.

Please be advised that in addition to any applicable general or special duty rate there may be various additional duties based on commodity and/or country of origin. Examples of these may be anti-dumping, counter-veiling, Section 301, Section 232, or Section 201 duties. Contact your Gebrüder Weiss representative if you require guidance in this area.
